DECEASED: Jim Treadaway of Spring Texas

DONATIONS: The Currency Club of Chester County.

CLUB NEWS: Here are some interesting facts from the Currency Club of Chester County. Where Wall Street got its name: In 1653, a wall was constructed on the northern part of the Dutch settlement of New Amsterdam to protect the colony from an attack from New England. The wall was made of 16 foot logs sunk four feet into the ground and sharpened at the top. The English did attack in 1664 and the wall was torn down in 1699. The street where the wall once stood was subsequently named “Wall Street.” Also, each year the Federal Reserve Board projects the need for new currency, which it acquires from the Department of the Treasury’s Bureau of Engraving and Printing at the cost of production. The current estimated cost for producing our currency is as follows: \$1 and \$2 notes are 5.4 cents each; \$5 notes 10.1 cents each; \$10 notes 9.2 cents; \$20 and \$50 notes 10.2 cents and \$100 notes are 13.1 cents per note. Thank You Dave Stitely!

Editor’s Notes: As I mentioned in the Cover comments, I left out illustrations for Lee De Good’s article on Plank Roads last issue, so I corrected that by using these intriguing notes as cover illustrations. I appreciated getting the article from Lee and I entreat you other readers to offer up your knowledge in the shape of articles. Currently, it seems that the paper market, along with coins is a bit soft. I continue to see lower prices and more emphasis on super notes. Frankly, I don’t need a super note to enjoy my collection. Of course I enjoy uncirculated notes as well as the next person, although as an exception I prefer signed, issued and circulated Obsolete notes to what I consider unremarkable remained notes. These notes are being hawked and for continually rising prices in high grade slabs. I prefer the romance and want to learn about the early signers of our notes. I also am happy with Extra Fine Large size notes. The relatively common \$5 Educational note is bringing \$20,000

and more in high grades. This is a beautiful note and in demand, but I can enjoy a lower grade just as much. Good centering is OK with me, as perfection in centering helps justify high costs. I am currently chasing small size notes. There are some expensive notes, but that is based on rarity much more than condition. That's my opinion, what do you think. Email me at billbrandimore@charter.net with you thoughts.

OUR COVER: This month's cover should have run in the last issue along with Lee De Good's article on Michigan's Plank Roads. I have never seen any examples of this esoteric scrip. Has anyone else seen such items? If so, let me know so we can provide more information on this interesting topic. My apologies to Lee for my oversight.

MICH-TAMS will be hosting its 50th Anniversary banquet on Friday night, November 27th, at Kavan's Restaurent across from the Macomb Community college, the site of the Michigan State Numismatic Society convention. Cost will be \$25 and will include your choice of dinner entrée, plus an auction and other surprises. For more information, contact Kathy Fereeland at ksfdal@sbeglobeal.net

PRESIDENT'S COLUMN:

I was able to make it to the ANA this past July, as my friend George Cuhaj was in town and called to see if I wanted to go down to Chicago with him to take in the Big Show. Since I don't drive any more this was a great opportunity to look at notes and we enjoyed both the show and the ANA banquet. We were guests of Mark Anderson at a table he sponsored as he represented the New York Numismatic Society as they received an award for their 106th year as a member of ANA and its oldest member club. This had been overlooked when their 100th anniversary rolled by. The Chicago Club will be honored on their 100th anniversary in 2019. I didn't see a lot of world currency, which has become so popular in recent years. I noted last fall that there wasn't a great deal of World currency at the Michigan State Show last Fall. Hopefully we'll see more at this coming MSNS Show. I am currently putting together WWII notes. I am chasing the block series of North Africa and Hawaii notes and the "Runs" of Hawaii and North Africa \$1 notes. Blocks, of course refers to the serial numbers and the letters at the beginning and the end of the numerals. Runs are a

bit more, as it requires the collector to get one each of each serial number series. When the Hawaii and North Africa Stars were printed, they were interspersed with the regular blue seal star notes. Thus as few as 12,000, or as many as 72,000 star notes were printed in sequence before more blue seals were printed. This also occurred in the non star blocks and makes for quite a challenge. In addition to Runs and blocks of these WWII notes I am also matching them up with their blue seal block counterparts. This keeps me prowling the aisles.

I will explore this topic more thoroughly in an article I wrote for this edition.

When you get this issue, sometime in October, The Michigan State Show won't be far away. Consider putting together an exhibit for the show. There is now plenty of room for exhibits in the Macomb College building where the show will be held. Exhibiting can be very rewarding so consider giving it a try. The prizes are nice also.

Our PNCM meeting at the MSNS show will be Saturday, November 28, 2015 at 11:00 AM. The show will be held the Friday after Thanksgiving and Saturday at Macomb Community college. I hope to see you there.

FEATURE ARTICLE
Collecting WWII \$1 Silver Certificates
Hawaiian and North African
By Bill Brandimore

During the early days of WWII the U.S. had no system for issuing payments in war zones to the troops. Today Military Payment Certificates serve that need. They would come later, however. With the looting of safety deposit boxes in Paris by Nazi German occupiers, this presented a problem when the U.S. entered WWII after the bombing of Pearl Harbor. A quick solution was to print U.S. currency with an overprint of the word Hawaii on the back and front of the note. In addition the treasury seals were brown. This was a good tactic and the notes were used in Hawaii so if Japanese successfully occupied Hawaii, the notes could be demonetized, thus prohibiting them from buying war material with U.S. Currency. They were also issued to military personnel, but could not lawfully be brought into the United States mainland.

The same methodology would be used for the invasion of North Africa, but in this case the \$1 silver certificates were printed with a yellow seal. They, too, could be demonetized if seized by the enemy. Hawaiian notes were also printed in \$5, \$10 and \$20 den, unlike the 1935A \$1 silver certificates were Federal Reserve notes of 1934 and 1934A. North African notes included the 1935A Yellow Seal \$1 note and \$5 and \$10 notes which were also printed with yellow treasury seals. These \$5 and \$10 notes were 1934 and 1934A silver certificates.

Collecting these notes can be accomplished in a number of ways. One way is by collecting the Block varieties, blocks being the prefix and suffix letters surrounding the serial number. A very simple collection would contain two notes, brown and yellow seal \$1 notes. Adding the other denominations for Hawaii and North Africa would make a nice type set.

With Block letters in the mix it becomes more complicated. Sticking with just \$1 notes there are 8 block letter varieties for Hawaii, YB-ZB-AC-CC-FC-LC-PC and SC. North Africa blocks include BC-CC-FC-IC AND RC. This in itself can be challenging. The ZB Hawaii is scarce and pricey as is the AC. The FC blocks for Hawaii and North Africa only extended to 12,000 notes each. These were sheet notes, however, and were not immediately released, so they are available and more affordable than the ZB and AC notes. Stars were also issued. You can go with one star from each issue, or, tackle the issue of Runs. "Runs" are notes printed in sequence. However, after intervening notes are printed (in this case blue seal varieties) and then more notes are printed with brown or yellow seals, these entities become a different animal, specifically a RUN. Hawaii notes were printed in 5 specific Runs. North African notes were printed in 4 Runs. A great reference for this material is the Schwartz/Lindquist small Size Catalog.

If you decide to collect the star Runs, know that some of them are quite scarce, the Hawaii \$1 star run beginning with serial number 91 million only included 12,000 notes and these did not remain sheet notes. In the North Africa batch, the 91 million start run saw a printing of 24,000 notes, but only 1 note from that run is known. It sold in 2008 for \$1,275,000. The notes are generally affordable, if you can find them in Very Good to Very fine grades. In uncirculated grades they escalate to \$3,000 or more. You can also add a little flair to your collection by also collecting the block varieties in their blue seal configurations.

If you decide to opt for runs, you really should also collect the block runs. There are no runs in the Hawaii series, but the North Africa series has 3 runs in the BC block and 2 in the CC block.

Personally I'm sticking to the \$1 notes, but the \$5, \$10 and \$20 notes of Hawaii and North Africa have multiple runs, mules and late finished plate varieties that can be confounding. So, welcome to the interesting world of collecting Small Size notes!

**Here is a great club you might want to consider if
you have any interest in United States Fractional
Currency of the Civil War period.**

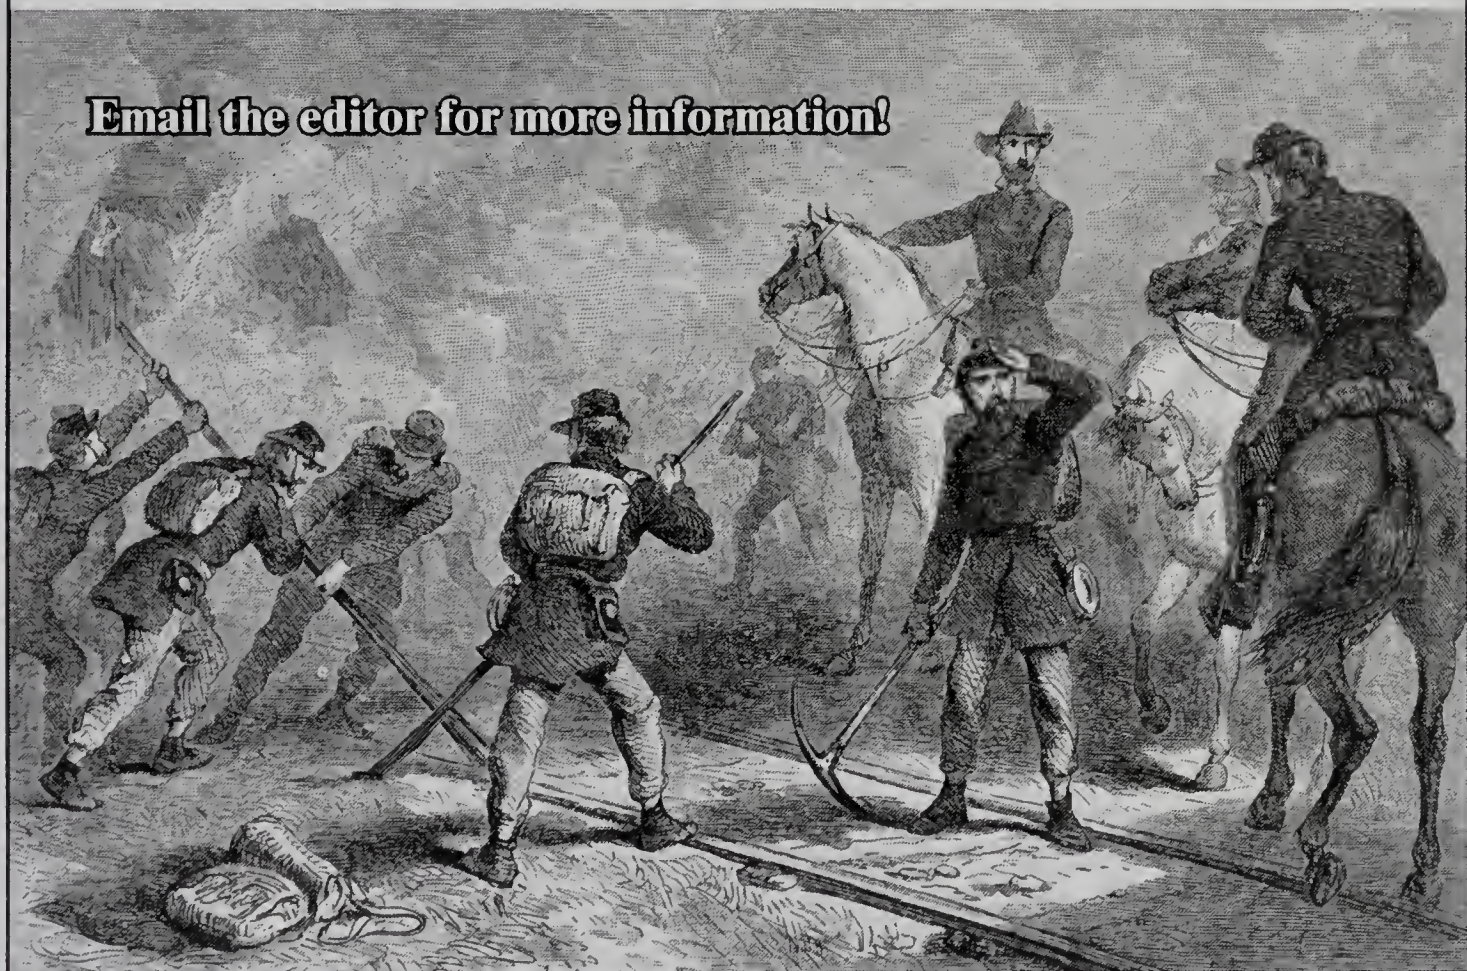

With the \$30 application fee you will receive two books along with one year's membership. The first is The Encyclopedia of Fractional Currency by Milton Friedberg. It is the definitive explanation of all Fractional Currency notes and the various Specimen, Proof and Experimental issues. Well illustrated, it will tell you perhaps more than you want to know.

The second book is called the Simplified Encyclopedia. As the name implies it is a more compact book dealing with less arcane issues. This is a good place to start if you are a beginner, with the regular Encyclopedia as a great reference to delve into for more information.

The FCCB meets every June at the Memphis Paper money show. Members also get together informally at the FUN Show in Florida.

The FCCB is composed of dedicated members who enjoy sharing their knowledge. Join us and join the fun of Fractional Currency!
